*We offer you **innovative logistics solutions.***

New Generation of Logistics

About Us

As New Generation of Logistics (NGL), which started its operations in 2013. We are a solution partner that can best undertake logistics responsibility and perform logistics applications in the most accurate way.

On this path in which we aim not only to carry our clients' freight but also to add value to them, we contribute to their growth stories and support their sustainability.

We offer services in the fields of land, air, maritime, intermodal, minivan, storage, domestic and international distribution, customs clearance, insurance transactions, value-added services, and project transportation.

Corporate Culture

In each solution we provide as a company, in each idea we put forward, we act in line with a common corporate culture.

We keep our promises with an awareness of responsibility and we know that customer satisfaction is the biggest gain. While approaching our customers with creative ideas and a focus on solution, we also follow technological developments and use the to ease our customers' lives.

We learn, study, and adopt every idea that shall help with our improvement and development. As a company, we protect and beautify the environment where we live. We care for the opinions of the agencies, suppliers, and outside companies, from which we procure services, and establish long-term collaborations with them.

What Do We Do?

International Road Transportation

We carry out international road transportation with our own vehicle fleet. We can carry cargos from many industries including products with ADR via 85 m3 of standard awning, 100 m3 of mega awning, and 120 m3 of truck bed.

FTL Transportation

We can provide FTL transportation services regardless of the day to all countries to which we make partial exits. We can take your reservations in normal weeks until 1 day before and we can provide express shipment service if requested.

LTL Transportation

We deliver your partial cargos to all European, Scandinavian, and Baltic countries with regular partial imports and export transportation. With our professional team, we carry out the loading and unloading stages of cargos without damage.

NGL
NEW GENERATION OF LOGISTICS

What Do We Do?

Hazardous Materials Transportation

We can safely carry the partial or complete cargos of our customers thanks to our ADR- certified drivers, vehicles, and equipment. In your emergency shipments, we deliver your cargos from door the door as soon as possible with our express transportation service.

Minivan

We offer minivan express transportation solutions with our own vehicle fleet.

We can monitor our private vehicles with a capacity of 1300 kg 24/7 via GPS satellite tracking and provide instant location information to our customers.

Domestic Transportation

We provide transportation services amongst the 81 cities of Türkiye with our own vehicles.

*This service was awarded the first prize in the category of Domestic Transportation Organizers within the scope of Atlas Logistics Awards in 2020 and 2021.

What Do We Do?

Project Transportation

We offer New Generation of Logisticss (NGL) quality in the most professional way in project transportation which requires high knowledge and experience. Our team specialized in project loading, engineers, and sales team provide an undamaged transport throughout the process.

Lorry

We offer express lorry solutions with our privately owned fleet. We can monitor our 3500 kg capacity private vehicles 24/7 using GPS satellite tracking and share real-time location information with our customers.

Storage

We offer storage activities with high quality standards and strong technological infrastructure. We have a total storage space of 7500 m2 within Türkiye. We answer to your overseas storage needs with our agencies in Europe.

NGL Poland

We produce solutions with our company in Poland in order to be more effective in Europe and to serve our customers with favorable freight rates and high quality.

We organize transportation between Türkiye-Poland, Poland and other European countries through our company, which operates under the name of NGL Logistics SP Z.0.0.

While we can carry out interim loading and storage operations with our 3000 square meter warehouse located in Sosnowiec, in the Silesian Voivodeship of the country, we can also benefit from the capabilities of local companies with our strong network.

Our Memberships, Certificates and Awards

We take care to strengthen our service infrastructure, offices, and vehicles through the certificates and memberships we obtain. We also crown our successes through receiving awards.
